

UNINTERRUPTED HIGHLY SECURE EMAIL COMMUNICATION DURING SERVER FAILURE

Safeguard your organisation from costly unplanned email outages and disaster recovery situations with Email Continuity which ensures your users can always send and receive new email via our portal.

Email Continuity provides redundancy for businesses on any email platform, including Office 365 and G Suite

KEY FEATURES

ALWAYS AVAILABLE EMAIL

In the event of a failure, all undeliverable emails are made available via a webmail frontend which allows continued processing and sending of emails

90 DAY MAIL RETENTION

Email traffic is stored for 90 days. If emails are accidentally deleted or lost due to a failure of the company mail server they can be restored within seconds.

ACCESS FROM ANY DEVICE
OR BROWSER

Email Continuity can be accessed from any browser, on any device, anywhere. As long as you can connect to the internet you can access your emails.

MAILBOX SYNC

After restoring the mail server, the Service automatically compares the existing mail data with that of the mail server and adds the missing emails as necessary.
